

Auto Kleen Powder

Concentrated Vehicle Wash

AUTO KLEEN POWDER has the best synthetic detergent for heavy truck cleaning. Specifically designed for wand-type spray washing of trucks, rigs and fifth wheels. Cleans aluminum trailers safely and removes diesel, smoke, road film, grease, and dirt. Cuts truck washing time to a minimum and makes underneath maintenance needs easily visible. It is a biodegradable product.

Directions: For Preparation of Concentrate: Recommended concentrations are from 1/2 to 3/4 pounds per gallon of water (227-340 grams per 3.786 liters). However, powder can be dissolved in water up to one pound per gallon for preparation of the concentrate tank. The upper ranges of solubility will vary with the amount of dissolved solids in the local water and the temperature of the water. Adjust the metering device to deliver the amount of concentrate tank solution desired, usually at a rate of one to two gallons of detergent per 80 gallons (2.4 kilograms detergent per kiloliter of final wash water) sprayed on the object to be cleaned. The amount metered will depend upon the amount of soil to be removed, the pressure used in the system and the nature of the dissolved solids in the local water. For best results avoid washing trucks in the summer sun.

Health	1
Flammability	0
Reactivity	0
Protection	N/A

Areas of Use:

- *vehicle maintenance yards
- *limousine companies
- *car rental facilities
- *city and county vehicles
- *bus yards
- *company vehicles
- *college and university vehicles
- *dealerships

Appearance and odor.....	White granular powder with mild odor.
Specific Gravity.....	Concentrate - >1
VOC.....	N/A
NFPA Fire Rating.....	Non-Flammable Spray
