

# Fresh

One drop deodorizer

This unique deodorizer is so powerful it only takes one or two drops to freshen a whole room all day long. **FRESH** is safe to use near people and pets, and can be used in areas such as hospitals, garbage areas, vehicles, drains, offices, and even in mop water or paint. Place one or two drops on new A/C filters to freshen the entire area each time the filter is changed. It's handy size allows **FRESH** to go with you wherever it is needed; in a glove box, pocket, tool box, on a cleaning cart, etc. It's small size allows the user to discreetly place drops in garbage cans or near open windows to remove odors without disturbing occupants of a room.

**Directions:** Place one drop of **FRESH** near odor source or near incoming air current to neutralize odors. One drop is all it takes to counteract malodor in a 1,000 cubic foot room for 24 hours. Do not place drops directly on plastic, rubber or painted surfaces. Repeat as needed.

#### Areas of Use:

- \*hospitals
- \*assisted living/retirement facilities
