

Omega All Weather Patch

Fibered plastic roof cement

OMEGA ALL WEATHER PATCH is a pliable asphalt roof cement that can be used on wet or dry surfaces, even under standing water. It is ideal for most roof repairs and for stopping leaks around vent pipes, spouts, valleys, skylights, gutters and chimneys, and for the construction and repair of flashing. **OMEGA ALL WEATHER PATCH** may also be used to seal cracks in exterior chimneys, walls and foundation joints, and for lining leaking gutters and troughs. This unique roof patching compound stays flexible and will not freeze or melt with extreme changing weather conditions. **ALL WEATHER PATCH** is fibered for outstanding durability and long lasting leak protection.

Directions: Apply with a trowel or putty knife. To patch small holes, fill with product and smooth down edges. If composition roof surface is dried out, apply **OMEGA'S SELF LEVEL PATCH** as a primer before completing repair. For larger holes, apply **OMEGA ALL WEATHER PATCH** approximately 1/4 inch thick then embed polyester or fiberglass membrane into the roof cement around the hole. Use Omega's **NATURAL WAY** for effortless cleanup of tools and other surfaces contacted by the roof cement.

Health	1
Flammability	2
Reactivity	0
Protection	G

Areas of Use:

- *cities
- *counties
- *school districts
- *building maintenance
- *roofing departments

Appearance and odor.....	Black paste, Solvent odor
