

Premium Coating

Enamel floor coating

PREMIUM COATING is an odorless, premium quality, fast drying, epoxy modified acrylic latex floor enamel. It is designed for use on interior and exterior surfaces of wood, concrete (new or old) and previously painted wood and concrete floors. **PREMIUM COATING** provides excellent water resistance and retains its color over time. This product is suitable for garages, breezeways, decks, warehouses, porches, steps, basements and light industrial applications. To reduce chances of slip and fall accidents use **PREMIUM COATING** with grit. Cures to a tough, durable film suitable for foot traffic within 24 hours. **Available in Red, Tan, Green, Blue, Brown, Beige, Burgundy and Gray; with or without grit.**

Directions: Prepare surface by cleaning area with a heavy duty degreaser such as Omega's **MEGA POWER** or **NATURAL WAY** degreaser to ensure area is free from dirt and oil residue. If concrete surface is slick, use Omega's **CON RENEW** to slightly etch the concrete for better adhesion. Allow to dry fully before application. Apply using brush, sprayer, or roller. For best results on previously painted surfaces, remove old paint with Omega's **JELL STRIP** paint and varnish remover prior to applying.

Areas of Use:

- *manufacturing plants
- *concrete floors
- *cities and counties
- *school districts
- *engineering departments
- *building maintenance
- *food processing plants
