

# Quick Dry Renew

Carpet cleaner

**QUICK DRY RENEW** carpet cleaner concentrate is specifically formulated for fast and easy surface cleaning of carpets without excessive wetting of the area. This dryer method of cleaning is preferred by many large facilities for its cleaning power and ease of use. The blend of 40% solvents and 30% carpet detergents in **QUICK DRY RENEW** is ideal for bonnet cleaning, upholstery cleaning, and traffic lane areas because it uses minimal water and is quick drying. For deep cleaning with extraction machine, use Omega's **RENEW** carpet steam and extraction solution. For pre-spotting of heavily soiled areas and for easy spot cleaning between bonnetting, use Omega's **KO'D** carpet spot remover.

**Directions:** **BONNET CLEANING:** Full carpet areas may be cleaned with a rotary machine and a cotton or nylon pad. Mix 16 oz. of **QUICK DRY RENEW** in one gallon of water. Using a pressurized sprayer, spray an area of carpet with solution, then spray both sides of dampened bonnet pad before scrubbing carpet. Rinse dirty bonnet in warm water and repeat above steps. **FOR SPOT REMOVAL:** Use cleaner full strength. Use terry cloth rag and rub cleaner on spot from the outer edge toward the center.
