

Weed Eater

Non-selective
spot weed killer

WEED EATER provides rapid knockdown and kill of most weeds and unwanted vegetation in non-crop areas. Now you can easily kill weeds that interfere with drainage, create a fire hazard or cause unsightly appearance. The revolutionary inverted tip applicator makes spraying this product easier than ever. **WEED EATER** contains a soil sterilant, which will control weeds and vegetation for up to one year. Ideal for controlling weeds that grow through cracks in concrete walkways, asphalt driveways, blacktop, gravelled areas or in rock pathways. For large scale applications use **WEED-GO** in bulk with a sprayer.

Directions: Invert can and point tip toward weeds to be sprayed. Depress the tab and saturate weeds thoroughly.

Areas of Use:

- *parking lots
- *around fencing
- *loading ramps
- *storage yards
- *apartment complexes
- *municipalities
- *grounds care

Health	2
