

Sani Gel

Gel Antiseptic Hand Sanitizer

Sani Gel skin sanitizer is a refreshing alcohol-based sanitizer that kills 99.9% of most illness-causing germs. Instantly sanitizes hands without water or towels. **Sani Gel** leaves hands sanitized, smooth and conditioned without an antiseptic smell. Evaporates quickly. Will not dry out skin. Helps prevent bacterial transfer and reduces hospital acquired infections. Dries in 15 seconds leaving hands with a fresh citrus fragrance.

Directions: Place a 'palmful' (5 grams) of **Sani Gel** in one hand. Spread on both hands and rub into the skin until dry (approximately 1 to 2 minutes). Place a smaller amount (2.5 grams) into one hand, spread over both hands to wrist and rub into the skin until dry (approximately 30 seconds). Will air dry in 15 seconds.

Areas of Use:

- *Schools
- *Hospitals
- *Daycares
