

Battery Cleaner

Cleans and Protects Batteries

BATTERY CLEANER provides a one-step solution to battery terminal corrosion removal and acid neutralization. Delivers a powerful, heavy-duty foam that clings to battery surfaces, provides extended contact time and neutralizes acid quickly. Helps eliminate power leaks and aids in restoring full starting power. Features a low odor, non-flammable, water-soluble formula. Contains a unique color indicator that turns red in the presence of acid, then changes back to yellow when the acid is neutralized. Regular use increases battery performance and life expectancy.

DIRECTIONS: SHAKE WELL BEFORE USING. Spray on cables, clamps, terminals, brackets, housings and entire battery surface. (Be sure cell covers are tightly sealed). **BATTERY CLEANER** will spray out light yellow and turn red in the presence of acid. Allow foam to work for several minutes, then flush off with water. If solution still turns red, acid neutralization process is not complete. Allow to set then repeat. For heavy deposits, agitation with a wire brush may be needed. If sprayed foam remains yellow . . . all acid has been neutralized. Allow product to dry and form residual protective film.

Areas of Use:

- *Fleet cars
- *Trucks & busses
- *Taxi fleets
- *Forklifts
- *Construction
- *Golf carts
- *Industrial battery backup systems
- *Postal vehicles
- *Marine equipment
- *Aircraft and more

Health	1
Flammability	1
Reactivity	0
Protection	B

Appearance and odor.....	N/A.
VOC.....	8.93500%
Net Wt.	18 oz.
