

# E-Z Kleen

Non-Acid Coil Cleaner

**E-Z KLEEN** was designed for the renovation of coils, fins, and filters and will actually step-up the heat transfer in your large or small air handling units from 40% to 80% depending upon the condition of the units being cleaned. **E-Z KLEEN** will also remove dust, lint, smoke, grease, dirt, oxidation, pitting, and atmospheric salts, plus it will inhibit further build-up of oxidation and pitting from 50% to 60%. **E-Z KLEEN** is virtually odorless and safe to use in confined areas or in sensitive areas of hospitals, etc. For smaller units or additional convenience and portability, try Omega's **E-Z-KLEEN FREE** rinsing aerosol formula.

**Directions:** Dilute one part concentrate to three parts water. Spray directly onto fins and coils. Turn unit on and normal cycling will create condensation which will activate concentrate and keep coils clean and odor free continuously. For simple application a portable hand pump sprayer is recommended. For immediate and faster cleaning, allow diluted concentrate to remain on coil and fins for five minutes. Rinse with clean water. Protects frames and filters from corrosion, also prevents soil and odors from recurring.

Health	3
Flammability	0
Physical Hazard	1
Protection	D

**Areas of Use:**

- \*Hospitals
- \*Municipalities
- \*Hotels
- \*Office Buildings
- \*Apartment Complexes
- \*School Districts
- \*Amusement Parks
