

Laundry 130

Triple Concentrated
Liquid Laundry Detergent

Laundry 130 contains a synergistic blend of three surfactants, anti-redeposition agents, and optical brighteners that make it your best choice for mild yet tough-on-dirt detergent. It penetrates, dissolves and flushes away dirt, grease, oil and food stains. **Laundry 130** works in hot or cold and in hard or soft water. It rinses clean and leaves no residue. It's biodegradable, too. It is safe on all washable fabrics. It is great for cleaning wool, silk, and delicate synthetics.

DIRECTIONS

Concentrations will vary according to water hardness, soil load, water temperature, time and machine efficiency. When using chlorine or color-safe (oxygen) bleach, add to the wash solution 3 to 5 minutes after the wash cycle begins. **Laundry 130** works best through an automatic liquid injection pump system. You, however, may add it directly into a flush dispenser.

Use Directions

Heavy Soils - 2 ounces per load.

Tumbler Machines: Light soils - 2 ounces per 100 pounds of dry laundry.

Prespotting: Use full strength.

Presoaking: Use 2 to 4 ounces per 10 gallons of water and soak the fabric overnight.

Hand Washing of Delicate Fabrics: Add 1/2 ounce per gallon in a sink or basin. Gently agitate by hand. Rinse in clear water. Allow to air dry.
