Section 1 ~ Identification
Identity (As Used On Label and List)  
A1115 MIST – CRANBERRY SPICE  
Date Prepared:  
10-08-2015  
Company Information:  
OMEGA INDUSTRIAL SUPPLY, INC  
Emergency Telephone Number:  
1-800-424-9300  
Address (Number, Street, Suite/Apt/#)  
101 Grobric Ct #1  
Telephone Number for Information:  
1-800-571-7347  
(City, State, and Zip Code)  
Fairfield, CA 94534  
Signature of Prepare (Optional)  
REGULATORY DEPT.

Section 2 ~ Hazard(s) Identification
Classifications  
Specific Target Organ Toxicity – Single Exposure (Narcotic Effects) –  
Eye Irritation - Aerosol -  
Category 3  
Category 2A  
Category 1  
Pictograms  
H222, H229 - Extremely flammable aerosol. Pressurized container may burst if heated  
Signal Word: Danger.

Section 3 ~ Composition/Information on Ingredients
Chemical Name  
Acetone  
Propane  
CAS No.  
67-64-1  
74-98-6  
% (Wt.)  
46 – 81 %  
19 – 34 %

Section 4 ~ First Aid Measures
Inhalation: Remove source of exposure or move person to fresh air and keep comfortable for breathing. If exposed/unwell/concerned: Call a POISON CENTER/doctor. Eliminate all ignition sources if safe to do so.  
Eye Contact: Remove source of exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.  
Skin Contact: Take off immediately all contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Gently blot or brush away excess product. Wash with plenty of lukewarm, gently flowing water for a duration of 15-20 minutes. Call a POISON CENTER/doctor if you feel unwell. Store contaminated clothing under water and wash before reuse or discard.  
Ingestion: Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER/doctor. If vomiting occurs naturally, lie on your side, in the recovery position. Never give anything by mouth to an unconscious or convulsing victim. Keep person warm and quiet.

Section 5 ~ Fire Fighting Measures
Suitable Extinguishing Media: Use water, fog, dry chemical, or carbon dioxide. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam.  
Unsuitable Extinguishing Media: Water may be ineffective but can be used to cool containers exposed to heat or flame.  
Specific Hazards in Case of Fire: Contents under pressure. Keep away from ignition sources and open flames. Exposure of containers to extreme heat and flames can cause them to rupture often with violent force. Aerosol cans may rupture when heated. Heated cans may burst. In fire, will decompose to carbon dioxide, carbon monoxide  
Fire-Fighting Procedures: Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.  
Special Protective Action: Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear. Care should always be exercised in dust/mist areas.

Section 6 ~ Accidental Release Measures
Emergency Procedure: Flammable/combustible material. ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stay upwind; keep out of low areas. Immediately turn off or isolate any source of ignition. Keep unnecessary people away; isolate hazard area and deny entry. Do not touch or walk through spilled material. Clean up immediately. Use absorbent sweeping compound to soak up material and put into suitable container for proper disposal.  
Recommended Equipment: Positive pressure, full-face piece self-contained breathing apparatus(SCBA), or positive pressure supplied air respirator with escape SCBA (NIOSH approved).  
Personal Precautions: ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Use explosion proof equipment. Avoid breathing vapor. Avoid contact with skin, eye or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.  
Environmental Precautions: Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

Section 7 ~ Handling and Storage
General: For industrial and institutional use only. Use by trained personnel only. Keep away from children. Wash hands after use. Do not get in eyes, on skin or on clothing. Do not breathe vapors or mists. Use good personal hygiene practices. Eating, drinking and smoking in work areas is prohibited. Remove contaminated clothing and protective equipment before entering eating areas. Watershast stations and showers should be available in areas where this material is used and stored.  
Ventilation Requirements: Use only with adequate ventilation to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source. Storage Room Requirements: Keep container(s) tightly closed and properly labeled. Store in cool, dry, well-ventilated areas away from heat, direct sunlight and incompatibilities. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Indoor storage should meet OSHA standards and appropriate fire codes. Containers that have been opened must be carefully resealed to prevent leakage. Empty container retain residue and may be dangerous. Do not cut, drill, grind, weld, or perform similar operations on or near containers. Do not pressurize containers to empty them. Ground all structures, transfer containers and equipment to conform to the national electrical code. Use procedures that prevent static electrical sparks. Static electricity may accumulate and create a fire hazard. Store at temperatures below 120°F.

Section 8 ~ Exposure Controls/Personal Protection
Eye Protection: Chemical goggles, safety glasses with side shields or vented/splash proof goggles. Contact lenses may absorb irritants. Particles may adhere to lenses and cause corneal damage.
Section 9 ~ Physical and Chemical Properties

Section 10 ~ Stability and Reactivity

Stability: Stable.

Conditions to Avoid: High temperatures.

Incompatible Materials: None known.

Hazardous Reactions/Polymerization: Will not occur.

Section 11 ~ Toxicological Information

Skin Corrosion/Irritation: Overexposure will cause defatting of skin.

Serious Eye Damage/Irritation: Overexposure will cause redness and burning sensation. Causes serious eye irritation.

Respiratory Irritation: May cause drowsiness or dizziness.

Reproductive Toxicity: No data available.

Specific Target Organ Toxicity - Single Exposure: None known.

Specific Target Organ Toxicity - Repeated Exposure: No data available.

Acute Toxicity: Inhalation: effect of overexposure include irritation of respiratory tract, headache, dizziness, nausea, and loss of coordination. Extreme overexposure may result in unconsciousness and possibly death.

Potential Health Effects - Miscellaneous

67-64-1 ACETONE

The following medical conditions may be aggravated by exposure: lung disease, eye disorders, skin disorders.

Section 12 ~ Ecological Information

Toxicity: No data available.

Bio-accumulative Potential: Does not bioaccumulate.

Persistence and Degradability: 91% readily biodegradable.

Section 13 ~ Disposal Considerations

Water Disposal: Under RCRA, it is the responsibility of the user of the product, to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state, and local laws. Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glue, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.
