

Odor Cap

Sealer & Deodorizer

ODOR CAP is a uniquely formulated, environmentally friendly sealer designed for use in waterless no flush urinals. **ODOR CAP** creates a non-soluble seal for a deodorizing liquid in the trap. **ODOR CAP** also prevents unwanted sewer vapors from backing up thru the pipes and into the air. **ODOR CAP** has a pleasant cherry fragrance that gives an instant and long lasting fragrance to cover odor problems from dried out traps, keeping them wet and odor free. Easy to use, simply add it and forget it.

Directions: Waterless Urinals: Add 3 ounces of **ODOR CAP** directly into the urinal. When deodorizing no longer takes place, add another 3 ounces.

Dried Out Drains: Add 1 gallon of water, then add **ODOR CAP** as follows:

- < 2" Drains - Add 3 ounces of **ODOR CAP**
- 3"- 4" Drains - Add 6 ounces of **ODOR CAP**
- > 4" Drains - Add 9 ounces of **ODOR CAP**

As long as there is no additional large amount of water entering the drain, **ODOR CAP** will last indefinitely.
