ROOT-B-GONE SACKS

Copper Sulfate Crystals in a Muslin Sack

OMEGA INDUSTRIAL SUPPLY, INC.

DIRECTIONS

TO TREAT ROOT GROWTH IN SEWER USE ROOT-B-GONE AS FOLLOWS: Place 10lb. sack of **ROOT-B-GONE** crystals in sewer main upstream of tree roots and secure with cord, twice yearly, in spring and early fall. Hang sack in sewer line where water-flow carries towards tree roots that grow into sewer line. **ROOT-B-GONE** crystals can be placed directly into sewer line and flushed into the pipe with water. Note: Do not apply in sink or tub drains.

COMMERCIAL, INSTITUTIONAL AND MUNICIPAL SEWERS, USE AS FOLLOWS:

SEWERS: Use one 10 lb. sack of **ROOT-B-GONE** crystals each 6 to 12 months, hung by the supplied cord into each junction or terminal manhole.

STORM DRAINS: Use one 10 lb. sack of **ROOT-B-GONE** per drain per year. Apply during period of light flow. In dry weather introduce a flow with a hose. If storm drains become almost plugged, repeat treatment at 2 monthly intervals.

SEWER PUMPS AND FORCE MAINS: Place one 10 lb. sack of **ROOT-B-GONE** crystals secured by the supplied cord at the storage well inlet. Repeat as needed.
