Section 1 ~ Identification			
Identity (As Used On Label and List)	Date Prepared:		
Q2028 SPEEDY CLEAN	05-07-2015		
Company Information:	Emergency Telephone Number:		
OMEGA INDUSTRIAL SUPPLY, INC	1-800-424-9300		
Address (Number, Street, Suite/Apt#) Telephone Number for Information:			
101 Grobric Ct #1	1-800-571-7347		
(City, State, and Zip Code)	Signature of Prepare (Optional)		
Fairfield, CA 94534	REGULATORY DEPT.		

Section 2 ~ Hazard(s) Identification

Hazard Designation **Emergency Overview**

Physical Appearance: Green liquid, mint fragrance.

Immediate Concerns: WARNING! Causes moderate to severe eye irritation.

Potential Health Effects

Causes moderate to severe irritation. Prolonged and repeated contact can cause redness and tearing. Eyes May cause dryness with prolonged contact.

Ingestion Can cause gastrointestinal irritation, nausea, vomiting and diarrhea

Spray or mist can be irritating to the upper respiratory tract. Inhalation

Acute Toxicity No test data is available for acute dermal toxicity. TOXIC; inhalation, ingestion or skin contact with material may cause severe injury or death.

Carcinogenicity: Not Listed by NTP. Not listed by IARC. Not listed by OSHA. Mutagenicity Not Available. Reproductive Toxicity

Reproductive Effects Not Available Medical Conditions Aggravated: None known. Teratogenic Effects Not Available Sensitization: Not Available

Target Organ Statement Contains material which can cause gastrointestinal and respiratory tract effects based on animal data

Comments For detailed toxicology information see Section 11

Section 3 ~ Composition/Information on Ingredients

Components (Specific Chemical Identity, Common Name(s))	CAS No.	%(Wt.)
None		

Section 4 ~ First Aid Measures

Eyes: Check for and remove any contact lenses. Flush out immediately for at least 20 minutes with running water and seek medical attention. Washing eyes within one minute is essential to minimizing eye damage. Hold eyelids apart to ensure flushing of the entire surface.

Skin: Wash with water. If irritation persists, seek medical attention.

Ingestion: Never give anything to an unconscious person. If swallowed, induce vomiting. Give large quantities of water or milk. If vomiting occurs, keep airways clear. Seek medical

Inhalation: Move person to fresh air and away from exposure. If breathing is difficult, administer oxygen and seek medical attention. Give artificial respiration if victim is not breathing

Section 5 ~ Fire Fighting Measures

Flammable Class: Nonflammable

Flame Propagation or Burning Rate of Solids: Not applicable

General Hazard: Evacuate personnel downwind of fire to avoid inhalation of irritating and/or harmful fumes and smoke.

Extinguishing Media: Alcohol type foam, CO2 (Carbon Dioxide), Dry Chemical, Water Fog

Hazardous Combustion Products: None

Fire Fighting Procedures: This product is a nonflammable substance. Fire, however, may create hazardous decomposition and combustion products. Cool exposed containers with water

Fire Fighting Equipment: Firefighting personnel must use respiratory and eye protection. Use full protective equipment (Bunker Gear) and self-contained breathing apparatus (SCBA) for all indoor fires and any significant outdoor fires. SCBA may not be required for small outdoor fires easily extinguished with a portable fire extinguisher.

Sensitive to Static Discharge: None

Sensitivity to Impact: None

Section 6 ~ Accidental Release Measures

Small Spill: Wearing the appropriate personal protective equipment designated in Section 8, move the leaking container to a containment area or rotate the container so that the opening is above the powder level. Sweep up and place in a labeled waste container.

Large Spill: Construct temporary dikes of dirt, sand, or any appropriate readily available material to prevent spreading of the material. appropriate personal protective equipment designated in Section 8, close or cap valves and/or block or plug hole in leaking container and transfer to another container. Contain material as described above and place in a labeled waste container

Environmental Precautions

Water Spill: Use appropriate containment to avoid runoff or release to sewer or waterways.

Land Spill: Use appropriate containment to avoid runoff or release to ground.

General Procedures: Remove containers of strong acids from release area. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Stop leak if you can do it without risk. Prevent entry into waterways, sewers, basements or confined areas. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Do not get water inside containers.

Release Notes: If spill could potentially enter any waterway, including intermittent dry creeks, contact the local authorities. If in the U.S., contact the US COAST GUARD NATIONAL RESPONSE CENTER toll free number 800-424-8802.

In case of accident or road spill notify: INFOTRAC in USA or Canada at 800-535-5053 or internationally at (International code)+1-352-323-3500

Comments: See Section 13 for disposal information and Section 15 for regulatory requirements. Large and small spills may have a broad definition depending on the user's handling system. Therefore, the spill category must be defined at the point of release by technically qualified personnel

Section 7 ~ Handling and Storage

Handling: Use appropriate personal protective equipment as specified in Section 8. Handle and use in a manner consistent with good industrial/manufacturing techniques and practices. Storage: Store in unopened containers under cool and dry conditions. Do not store with, or close to acids.

Section 8 ~ Exposure Controls/Personal Protection

Engineering Controls: If dust, vapors, or mists are generated, provide local exhaust ventilation to control airborne levels below the exposure limit.

Personal Protective Equipment

Eyes and Face: Wear chemical splash goggles and face shield when eye and face contact is possible due to splashing or spraying of material.

Skin: Where contact is likely, wear neoprene chemical resistant gloves, a chemical suit, rubber boots, chemical safety googles and a face shield.

Respiratory: Always wear NIOSH approved respiratory protective equipment when vapors or mists may exceed applicable concentration limits.

Work Hygienic Practices: Facilities storing or using this material should be equipped with an eyewash facility and a safety shower. Follow good personal hygiene practices. Comments: ACGIH's Guide to Occupational Exposure Values don't list PEL's, TLV's or OEL's for this product or its ingredients.

Section 9 ~ Physical and Chemical Properties Flash Point and Method: None :(Cleveland Open Cup)

Flammability Limits (LEL/UEL): Not Available Auto-Ignition Temperature: None

Physical State: Liquid Odor: Mint

Color: Green **pH** (as is): 3.0

Vapor Pressure: Not Available Vapor Density: Not Available **Boiling Point:** >212°F

Freezing Point: Not Available Melting Point: Not Applicable Solubility in Water: Complete Evaporation Rate: 1.0

Density: Not Available

Specific Gravity: 1.068 Viscosity: 1 - 3 cps

Decomposition Temperature: Not Available Coefficient Oil/Water: Not Available

Section 10 ~ Stability and Reactivity

Stable: YesConditions to Avoid: Heat, temperatures above 200°C.Hazardous Polymerization: NoHazardous Decomposition Products: NonePolymerization: Will not occurIncompatible Materials: Strong Acids

Stability: The product is stable under normal ambient conditions of temperature and pressure

Section 11 ~ Toxicological Information

Acute Carcinogenicity Eye: Not Available IARC: Listed by IARC - No Dermal LD50: Not Available NTP: Listed by NTP - No Oral LD50: Not Available OSHA: Listed by OSHA - No Inhalation LC50: Not Available Sensitization: Not Available Reproductive Effects: Not Available Eye Effects: None. Skin Effects: None. Teratogenic Effects: Not Available Target Organs: Eyes, skin Mutagenicity: Not Available

Section 12 ~ Ecological Information

Environmental Data: May cause adverse environmental impact if material reaches waterways.

Ecotoxicological Information: Not Available

Distribution: Not Available

Chemical Fate Information: Not Available

Section 13 ~ Disposal Considerations

Disposal Method: Dispose of waste at an appropriate waste disposal facility according to current laws and regulations.

For Large Spills: Contain material and call local authorities for emergency assistance. In consultation with the appropriate authorities, determine the disposal method or contact Omega Industrial Supply Inc.

Product Disposal: Dispose of at a supervised incineration facility or an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal.

Empty Container: Rinse drums with water before disposal or reuse in accordance with applicable regulations.

General Comments: Refer to Section 6, Accidental Release Measures for additional information.

Section 14 ~ Transport Information

	Air (ICOA/IATA)	Vessel (IMO/IMDG)
Road and Rail (ADR/RID): Non-Regulated	Shipping Name: Non-regulated	Shipping Name: Non-regulated
Kemler Number: None	Technical Name: Mixture	Technical Name: Mixture
Hazard Class: Non-regulated	UN/NA Number: Non-regulated.	UN/NA Number: Non-regulated.
	Primary Hazard Class/Division: Non-regulated	IMDG Class/Division: Non-regulated.
	Packing Group: Non-regulated.	Packing Group: Non-regulated.
	Label: Non-regulated.	Label: Non-regulated.
	Remarks: None.	Marine Pollutant: No
		EMS Number: Non-regulated.
		Remarks: Limited quantity

Section 15 ~ Regulatory Information

European Community

EEC Label Symbol and Classification

S36/39: Wear suitable protective clothing and eye/face protection.

S24/25: Avoid contact with skin or eyes.

SS26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S28: After contact with skin, wash immediately with plenty soap and water.

European Community Regulatory: All intentional ingredients are listed on the European's EINECS Inventory.

Section 16 ~ Other Information

	NFPA	HMIS	Key
HEALTH	1	1	4= Severe
FLAMMABILITY	0	0	3= Serious
REACTIVITY	0	0	2= Moderate
OTHER/PROTECTION	-	-	1= Slight
			0= Minimal
