

NO MESS ANTI-SEIZE ALUMINUM

High Temp Anti-Seize

NO MESS ANTI-SEIZE contains no lead or copper and has a synthetic non-melting carrier. This high quality lubricant dissipates at temperatures above 400°F without a carbon residue, leaving a dry film of aluminum and graphite to plate and protect metal surfaces to temperatures of 2000°F (1095°C). **NO MESS ANTI-SEIZE** has interchangeable applicator tips allow you to apply a bead line of lubricant or brush it on depending on the job needs!

FEATURES AND BENEFITS

- Pressure applicator eliminates waste
- Water Resistant
- Prevents Galling & Seizing
- Reduces friction and lubricates metal surfaces to 2000°F (1095°C)
- Protects Against Rust & Corrosion
- Meets Performance Requirements of MIL-PRF-907E

DIRECTIONS

All surfaces should be cleaned before application. Depress nozzle to apply to threads or other surfaces which require protection.

Areas of Use:
