

SG GREASE TUBE

Silicone Grease with PTFE

SG GREASE TUBE is a release agent, O-Ring lubricant and dielectric moisture barrier that is easy to apply. Not for surfaces that will be painted or finished. Not recommended for silicone O-Rings or silicone based products such as silicone rubber. Test all rubber applications for swell or shrink problems. **SG GREASE TUBE** is non-toxic, non-melting, non-corrosive, long service life, moisture resistant, excellent lubrication and release properties, and high chemical, oxidation and radiation resistance.

DIRECTIONS

Clean and dry all surfaces before application.
