

STAR DUAL SCRUBBY SPONGE

Non-Scratch Cleaning Sponge
Tough in Cold & Soft in Warm Water

CODE # P9247

The **STAR DUAL SCRUBBY SPONGE** is unlike common sponges and scrubber products, you control your scrubbing power! **STAR DUAL SCRUBBY SPONGE** is a dual-sided sponge that is scrubby on one side and a soft urethane foam on the other. The yellow urethane side is perfect for smoother surfaces, soaking up excess liquids and it can absorb up to 6 times the water. The red foam is firmer in cold water for tough scrubbing and softer in warm water for light cleaning. Both sides are safe to use on over a dozen different surfaces such as glass, stainless steel, floors, walls, non-stick coatings, copper, chrome, leather and will not leave scratch marks. The **STAR DUAL SCRUBBY SPONGE** can be used to wash anything from dishes to cars! When properly maintained, the **STAR DUAL SCRUBBY SPONGE** can resist odors and stains for up to 8 weeks! Quickly and efficiently clean utensils, dishes, furniture, siding, sneakers, bathtubs and more. This one-of-a-kind sponge is designed to fit comfortably in your hand providing good grip and coverage so you can spend less time scrubbing.
