

Fast

Penetrating Lubricant

FAST will loosen dirt and scale from painted and plated surface. Remove loosened scale and spray again to cover surface. Liberal application will loosen threads, tightly fitted parts, sliding and rotating parts, bolts, hinges and pins which have been “frozen” by corrosion. The formula will protect against renewed corrosion. **FAST** is a powerful, multiple-action protective shield against the harmful effects of moisture and corrosion. It protects electrical gear, metal and other surfaces from deterioration by displacing water and moisture and sealing all surfaces with a complete molecular film. It preserves equipment, thus reducing repair and maintenance costs. Dielectric strength 30,000 volts. **CORRODED SURFACES:** Will loosen dirt and scale from painted and plated surfaces. Remove loosened scale and spray again to cover surface. **TO LOOSEN BOUND PARTS:** Liberal application will loosen threads, tightly fitted parts, sliding and rotating parts, bolts, hinges and pins which have been “frozen” by corrosion. The formula will protect against renewed corrosion. Also lubricates, loosens dirt, scale and other corrosive elements; never becomes dry, brittle or hard. Protects the properties of insulating substances and does away with wicking. The conductivity of commutators and contacts is protected by the formula. Can be used on either dry or wet surfaces. To ensure adequate protection, periodic checks should be made to determine the need for reapplication.

Directions: Spray liberally directly on area to be treated. Reapply periodically as required.

Protection	A

Areas of Use:

- *Machine shops
- *Factories
- *Assembly plants
- *Electronics repair shops
- *Air conditioning repair
- *Auto body shops
- *Locksmiths
- *Auto mechanic shops
- *Mechanic shops
- *Oil rigs

Appearance and odor.....	Amber spray with bland odor.
Specific Gravity.....	0.825
VOC.....	0%
Net Wt.....	15 oz.
