

MEGA BAC 100X & DISPENSER

Super Concentrated, Biodegradable
Drain Cleaner

MEGA BAC 100X drain maintenance system provides a highly effective, non-toxic, biodegradable, bacterial grease-digesting treatment **MEGA BAC 100X**, puts to work billions of colony-forming bacteria from our Industrial Drain Cleaner, which digest fats, oil and grease (FOG), leaving behind water and inert carbon. **MEGA BAC 100X** helps avoid drain back-ups and reduces build-ups in grease traps, interceptors, and sewage ejectors. Odors are neutralized at the source by reducing grease. **MEGA BAC 100X** contains naturally occurring bacteria designed to treat drains on a time-metered basis, providing round the clock drain protection, odor control, and clean drains.

Environmentally Neutral.

- No harsh chemicals
- Completely biodegradable
- Naturally occurring active ingredients
- Won't harm plumbing

MEGA BAC DISPENSER SOLD SEPARATELY

MEGA BAC 100X DISPENSER is easy to install battery operated LED continuous drip dispenser is intended to be installed with a direct feed through the 6 foot tube into floor drains or can be tapped directly into drain lines in high volume use areas such as busy commercial kitchens. Ultra high count bacterial grease eating formula is automatically dispensed in programmable intervals (7.5 minutes being optimal), insuring a steady supply of powerful live bacteria to keep drains and lateral drain lines cleaner, fresher and freer of FOG (fats, oil and grease). Replace refill every 30 -90 days depending on drip frequency setting chosen. Comes complete with installation kit and 6 feet of tubing.

Health	0
