

This brief provides a general overview of the **Safety Data Sheet** requirements in the Hazard Communication Standard OSHA's 29 CFR 1910.1200(g) and Appendix D of 29 CFR 1910.1200).

Section 1 ~ Identification

Identity (As Used On Label and List) Q2058 Mega Power	Date Prepared: 04-14-2015
Company Information: OMEGA INDUSTRIAL SUPPLY, INC	Emergency Telephone Number: 1-800-424-9300
Address (Number, Street, Suite/Apt#) 101 Grobric Ct #1	Telephone Number for Information: 1-800-571-7347
(City, State, and Zip Code) Fairfield, CA 94534	Signature of Prepare (Optional) REGULATORY DEPT.

Section 2 ~ Hazard(s) Identification

<i>Hazard Designation</i>	None
<i>Immediate Concerns</i>	DANGER! Causes eye, skin and mucous membrane burns.
<i>Potential Health Effects</i>	Eyes: Causes eye burns. Contact with eyes may cause severe irritation and possible burns. Eye exposure may cause severe and permanent eye injury (blindness). Skin: Causes skin burns. The amount of tissue damage depends on length of contact. Skin inflammation is characterized by itching, scaling, reddening or, occasionally, blistering. Ingestion: Harmful if swallowed. May cause burns to mouth, throat and stomach. Inhalation: Inhalation of dust will produce irritation to gastro-intestinal or respiratory tract, characterized by burning, sneezing and coughing. Acute Toxicity: No test data is available for acute dermal toxicity. TOXIC; inhalation, ingestion or skin contact with material may cause severe injury or death. Carcinogenicity: Not Listed by NTP Not listed by IARC Not listed by OSHA Mutagenicity: Not Available Reproductive Effects: Not Available Medical Conditions Aggravated: None known Teratogenic Effects: Not Available Sensitization: Not Available Target Organ Statement: Contains material which can cause gastrointestinal and respiratory tract effects based on animal data. Comments: For detailed toxicological information see Section 11.

Section 3 ~ Composition/Information on Ingredients

Components (Specific Chemical Identity, Common Name(s))	CAS No.	%(Wt.)
Ethylene Glycol Monobutyl Ether	111-76-2	1 - 5
Sodium Metasilicate	6834-92-0	1 - 5
Sodium Tripolyphosphate	7758-29-4	1 - 5
Dodecyl Benzene sulfonic acid	27176-87-0	1 - 5

Section 4 ~ First Aid Measures

Eyes: Check for and remove any contact lenses. Flush out immediately for at least 15 minutes with running water and seek medical attention. Washing eyes within one minute is essential to minimizing eye damage. Hold eyelids apart to ensure flushing of the entire surface. Seek medical attention.
Skin: Immediately wash with plenty of water for at least 15 minutes. Remove contaminated clothing and footwear and wash before reusing. Seek medical attention.
Inhalation: Move person to fresh air and away from exposure. If breathing is difficult, administer oxygen and seek medical attention. Give artificial respiration if victim is not breathing.
Ingestion: Never give anything to an unconscious person. If swallowed, do not induce vomiting. Give large quantities of water or milk. If vomiting occurs, keep airways clear. Seek medical attention.

Section 5 ~ Fire Fighting Measures

Flammable Class: Non-flammable **Flame Propagation or Burning Rate of Solids:** Not Applicable
General Hazard: Evacuate personnel downwind of fire to avoid inhalation of irritating and/or harmful fumes and smoke.
Extinguishing Media: Alcohol type foam, CO2 (carbon dioxide), dry chemical, water fog
Hazardous Combustion Products: None
Fire Fighting Procedures: This product is a nonflammable substance. Fire, however, may create hazardous decomposition and combustion products. Cool exposed containers with water spray to prevent overheating.
Fire Fighting Equipment: Firefighting personnel must use respiratory and eye protection. Use full protective equipment (Bunker Gear) and self-contained breathing apparatus (SCBA) for all indoor fires and any significant outdoor fires. SCBA may not be required for small outdoor fires easily extinguished with a portable fire extinguisher.
Sensitive to Static Discharge: None **Sensitivity to Impact:** None

Section 6 ~ Accidental Release Measures

Small Spill: Wearing the appropriate personal protective equipment designated in Section 8, move the leaking container to a containment area or rotate the container so that the opening is above the powder level. Sweep up and place in a labeled waste container.
Large Spill: Construct temporary dikes of dirt, sand, or any appropriate readily available material to prevent spreading of the material. Wearing the appropriate personal protective equipment designated in Section 8, close or cap valves and/or block or plug hole in leaking container and transfer to another container. Contain material as described above and place in a labeled waste container.
Environmental Precautions
Water Spill: Use appropriate containment to avoid runoff or release to sewer or waterways.
Land Spill: Use appropriate containment to avoid runoff or release to ground.
General Procedures: Remove containers of strong acids from release area. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Stop leak if you can do it without risk. Prevent entry into waterways, sewers, basements or confined areas. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Do not get water inside containers.
Release Notes: If spill could potentially enter any waterway, including intermittent dry creeks, contact the local authorities. If in the U.S., contact the US COAST GUARD NATIONAL RESPONSE CENTER toll free number 800-424-8802. **In case of accident or road spill notify:** INFOTRAC in USA or Canada at 800-535-5053 or internationally at (International code)+1-352-323-3500 **Comments:** See Section 13 for disposal information and Section 15 for regulatory requirements. Large and small spills may have a broad definition depending on the user's handling system. Therefore, the spill category must be defined at the point of release by technically qualified personnel.

Section 7 ~ Handling and Storage

Handling: Use appropriate personal protective equipment as specified in Section 8. Handle and use in a manner consistent with good industrial/manufacturing techniques and practices.
Storage: Store in unopened containers under cool and dry conditions. Do not store with, or close to acids

Section 8 ~ Exposure Controls/Personal Protection

Engineering Controls: If dust, vapors, or mists are generated, provide local exhaust ventilation to control airborne levels below the exposure limit.
Respiratory Protection (Specify Type): Always wear NIOSH approved respiratory protective equipment when vapor or mists may exceed applicable concentration limits.
Skin Protection: Where contact is likely, wear neoprene chemical resistant gloves, a chemical suit, rubber boots, chemical safety goggles and a face shield.
Eye Protection: Wear chemical splash goggles and face shield when eye and face contact is possible due to splashing or spraying of material.
Work/Hygienic Practices: Facilities storing or using this material should be equipped with an eyewash facility and a safety shower. Follow good personal hygiene practices.

Section 9 ~ Physical Chemical Properties

Boiling Point	220°F	Specific Gravity	1.02
----------------------	-------	-------------------------	------

Vapor Pressure @ 25°C	10	Melting/Freezing Point	Not applicable
Vapor Density (Air =1)	Water-based	Evaporation Rate (Butyl Acetate = 1)	1.0
Solubility in Water	Complete	pH	12.0
Appearance and Odor— Liquid, yellow with fruity odor.		VOC%	-
Flash Point (Method Used): None (Cleveland Open Cup)	Auto - Ignition Temperature: None	Lower Flammability Level: Not Available	Upper Flammability Level: Not Available.

Section 10 ~ Stability and Reactivity

Stability: Unstable <input type="checkbox"/> Stable <input checked="" type="checkbox"/>	Conditions to Avoid – Heat, temperatures above 200°C.	Hazardous Polymerization: May Occur <input type="checkbox"/> Will Not Occur <input checked="" type="checkbox"/>
-----------------------------------------------------------------------------------------	-------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------

Stability: The product is stable under normal ambient conditions of temperature and pressure.

Incompatibility (Materials to Avoid) – Strong acids.

Hazardous Decomposition or Byproducts – None.

Section 11 ~ Toxicological Information

Acute

Eyes: Not Available

DERMAL LD50: Not Available

Oral LD50: Not Available

Inhalation LC50: Not Available

Eye Effects: This material is corrosive to the eyes.

Skin Effects: This material is irritating to the skin.

Target organs: Eyes, skin, gastrointestinal tract and respiratory system

Carcinogenicity

IARC: Listed by IARC – No

NTP: Listed by NTP - No

OSHA: Listed by OSHA - No

Sensitization: Not Available

Reproductive Effects: Not Available

Teratogenic Effects: Not Available

Mutagenicity: Not Available

Section 12 ~ Ecological Information

Environmental Data: May cause adverse environmental impact if material reaches waterways.

Ecotoxicological Information: Not Available

Distribution: Not Available

Chemical Fate Information: Not Available

Section 13 ~ Disposal Considerations

Disposal Method: Dispose of waste at an appropriate waste disposal facility according to current applicable laws and regulations.

For Large Spills: Contain material and call local authorities for emergency assistance. In consultation with the appropriate authorities, determine the disposal method or contact Omega Industrial Supply, Inc.

Product Disposal: Dispose of at a supervised incineration facility or an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal.

Empty Container: Rinse drums with water before disposal or reuse in accordance with applicable regulations.

General Comments: Refer to Section 6, Accidental Release Measures for additional information.

Section 14 ~ Transport Information

US Dept. of Transportation (DOT)		Water Transportation (IMDG)		Air Transportation (IATA)	
Proper Shipping Name:	Mixture	Proper Shipping Name:	Mixture	Proper Shipping Name:	Mixture
Hazard Class:	Non-regulated	Hazard Class:	Non-regulated	Hazard Class:	Non-regulated
UN/NA Number:	Non-regulated	UN/NA Number:	Non-regulated	UN/NA Number:	Non-regulated
Packing exceptions:	-	Packing exceptions:	Non-regulated	Packing exceptions:	Non-regulated

		Marine Pollutant	No		

Section 15 ~ Regulatory Information

European Community

EEC Label Symbol and Classification

S36/39: Wear suitable protective clothing and eye/face protection.

S24/25: Avoid contact with skin or eyes. S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S28: After contact with skin, wash immediately with plenty of soap and water.

European Community Regulatory: All intentional ingredients are listed on the European's EINECS Inventory.

Section 16 ~ Other Information

	NFPA	HMIS	Key
HEALTH	1	1	4= Severe
FLAMMABILITY	0	0	3= Serious
REACTIVITY	0	0	2= Moderate
OTHER/PROTECTION	-	-	1= Slight
			0= Minimal

Disclaimer: Information given herein is offered in good faith as accurate, but without guarantee. Conditions of use and suitability of the product for particular uses are beyond our control; all risks of use of the product are therefore assumed by the user. Nothing is intended as a recommendation for uses which infringe valid patents or as extending license under valid patents. Appropriate warnings and safe handling procedures should be provided to handlers and users.
