

Mega Tape

Pressure Sensitive Tape

MEGA TAPE is an innovative pressure-sensitive tape which is hand tearable and leaves little or no residue on the surface. **MEGA TAPE** can even be removed from itself and reused unlike standard duct tapes. **MEGA TAPE** does not leave any residue on hands unlike conventional butyl tape in the construction market. Made from a polyethylene based flat yarn substrate, **MEGA TAPE** boasts a higher tensile strength and dimensional stability than conventional gaffer tapes or duct tapes. Typical applications for **MEGA TAPE** include surface or floor protection and paint masking for automotive, marine, rolling stocks, aviation, entertainment and construction industries. Roll size 50mm x 20m (approx. 1.9685" x 65.6167'). Available colors Black, Blue, Clear, Green, Red, White and Yellow

Directions: Use like duct tape.

Areas of Use:

- *Aviation
- *Rolling Stock
- *Shipyards
- *Marine
- *Bridge
- *Entertainment
(like Concert, Movie studio, TV studio)
- *Building & Construction
- *Engineering & Maintenance
