

MEGA BAC FOAM

Foaming Drain Cleaner & Odor Eliminator

MEBA BAC FOAM contains non-pathogenic bacteria that produce enzymes necessary for degradation of fats, oils, greases (FOG) and food by-products. Thick, rich foam expands into areas otherwise impossible to reach. 24" tube allows user to apply deep into drains and pipes where build-up occurs. Reduces odors and organic material. **MEGA BAC FOAM** contains no acid or caustics and is non-polluting. **MEGA BAC FOAM** can also be used after treatment with drain openers to prevent future clogging and residual odors.

DIRECTIONS: Attach the tube to the spray nozzle. Direct tube down drain or disposal and spray until foam is visible. Allow ample time for product to penetrate and break down build-up. Re-apply product periodically to maintain and keep the drain pipe and disposal clean and odor free.
