Section 5 ~ Fire Fighting Measures

Flash Point (Method Used): N/D	Flammable Limits	LEL: N/D	UEL: N/D
---------------------------------------	-------------------------	-----------------	-----------------

Extinguishing Media – Use Water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish flames.

Special Fire Fighting Procedures – Evacuate area. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply. Firefighters should use standard protective equipment and in enclosed spaces, self-contained breathing apparatus (SCBA). Use water spray to cool fire exposed surfaces and to protect personnel.

Unusual Fire and Explosion Hazards – None

Section 6 ~ Accidental Release Measures

Steps to be Taken in Case Material is Released or Spilled – Eliminate source of leak or spill. Confine area to clean up personnel. Ventilate confined area. Absorb and/or confine liquid with sand, earth, or other suitable material. Keep product out of sewer or watercourses. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Advise authorities and National Response Center (800-424-8802) if the product has entered a water course or sewer.

Section 7 ~ Handling and Storage

Use with adequate ventilation. **Storage:** Do not store at temperatures above 120°F. Do not store in open or unlabeled containers. Do not use or store near heat, open flame or sources of ignition.

Section 8 ~ Exposure Controls/Personal Protection

Respiratory Protection (Specify Type) – None required under normal working conditions. If TLV is exceeded, use NIOSH approved respirator.

Ventilation — Adequate ventilation should be provided so that exposure limits are not exceeded.

Skin Protection – Use chemical resistant gloves in situation of over exposure.

Eye Protection – Always wear safety glasses or chemical proof goggles when working with chemicals.

Other protective Clothing or Equipment – Not required under normal working condition. If prolonged or repeated contact is likely, chemical, and oil resistant clothing is recommended.

Work/Hygienic Practices – Observe good hygiene. Wash hands thoroughly after product use, eating, drinking, and using restrooms, etc.
