

Odor Cone

Scented Dome

ODOR CONE is a fragrance cover which is composed of a unique material containing 2-3 times more fragrance than other air fresheners like gels or metered aerosols. The **ODOR CONE** dispenser has a motor driven fan that moves the air freshener further than a typical passive system, thus freshening larger areas. **ODOR CONE** releases approximately the same amount of air freshener daily over 30 days by controlling the fan's operation. **ODOR CONE** dispenser with fan is controlled by a computer program, the fan turns sparingly in week 1, and gradually turns more frequently until week 4 when the fan turns constantly. **ODOR CONE** dispenser with fan is efficient because the fan only turns when the lights are on which extends the alkaline battery life up to 6 months. **ODOR CONE** dispenser with fan remembers everything so you don't

have to!! Replacing the cover activates a 33 day computer program with the following prompts:

DAYS 1-29: GREEN led flashes indicating 'all systems go'

DAY 30+: RED led flashes indicating 'time to change cover'

DAY 33+: RED led flashes plus audible alert sound every 3 1/2 minutes.

ODOR CONE dispenser with fan mounts to any flat surface with the double-sided tape or screw kit that is included. **ODOR CONE** dispenser with fan is sold separately.

Areas of Use:

- *Restrooms
- *Hallways
- *Offices
- *Locker rooms
- *Gyms
