

# Solar Wash

## Solar Panel Wash & Protectant

**SOLAR WASH** has been specially developed to clean and protect surfaces of Monocrystalline, Polycrystalline and Amorphous types of photovoltaic solar cells. Using state of the art chemistry, **SOLAR WASH** will remove soils and debris from surface of solar panels and adjacent mounting structures keeping them operating at their highest efficiency. Anti-redeposition technology keeps panels cleaner and operating at peak efficiency longer than conventional cleaners.

**Directions:** Easy to Use! Packaged in a ready-to-use spray bottle. Simply connect sprayer to fresh water hose, pull back safety and rotate dial to “ON” position. **SOLAR WASH** automatically dispenses at correct dilution. Spray surfaces, allow to soak for 1-2 minutes (scrub if needed) and then rinse by turning dial to the “Rinse” position.

### Areas of Use:

- \* Solar panels

Health	-
Flammability	-
Physical Hazard	-
Protection	-

Appearance and odor.....	Clear solution.
Specific Gravity.....	1.023 +/- 0.2
VOC.....	N/A
