

Terminator

Vanilla Scented Insecticide with
4 Week Residual

Terminator is a fast acting insect killer that leaves a pleasant vanilla scent with no insecticide smell whatsoever! Great for use in confined areas or where strong odors could cause a problem. Ideal for areas frequented by customers because it smells like you just sprayed deodorizer instead of insecticide! Provides quick and effective killing action to kill the bugs you see and has a three month residual to kill the ones you don't. **TERMINATOR** is effective on cockroaches, ants, booklice, centipedes, crickets, fleas, silverfish, sowbugs, ticks, waterbugs, brown dog ticks, spiders, earwigs, pillbugs, scorpions, carpet beetles, and more. Spray around crawl spaces, breaker boxes, and along ceilings to prevent insects from nesting in these infrequently entered areas.

Directions: Spray **TERMINATOR** directly on insects or saturate areas along cracks and crevices, baseboards, around windows, vents, and other areas where insects are known to enter.
