

Belt-Tite

Belt dressing

BELT-TITE belt dressing is a resin based spray designed to increase power and performance by reducing slippage of all types of power belts including round, flat or V-type belts made of leather, rubber, fabric & synthetic material. Cleans, preserves, waterproofs, and adds new flexibility to old belts. Compatible with fabric, synthetic, leather or rubber belts. Helps clean and prolong the life of belts, and increases equipment efficiency while reducing down time. **BELT-TITE** belt dressing will not glaze and does not attract dirt or dust. Convenient 360° valve allows product to be sprayed in upright or inverted position for ease of use. To keep equipment clean add Omega's **POW** heavy duty degreaser to your maintenance schedule and use before treating belts.

Directions: Apply a little at a time to the inner surface of the belt while machinery is in motion. Spray using a back and forth motion until the belt is completely wet. Repeat occasionally to help engine maintain full power and to lengthen belt life.

Health	3*
Flammability	3
Physical Hazard	0
Protection	X

Areas of Use:

- *Machinery
- *Vehicles
- *Municipalities
- *Automotive Shops
- *Industrial Plants
- *Amusement Parks

Appearance and odor.....	Gas aerosol, odor not available.
Specific Gravity.....	0.826 estimated.
Net Wt.	11 oz.
