

BIRD REPEL

Bird Repellent
Will not Harm Birds

BIRD REPEL is designed to discourage pigeons, house sparrows, starlings, gulls, blackbirds, crows and common ravens from roosting or perching on treated ledges, roofs, sills, peeks, cornices and similar parts of buildings, bridges and overpasses. **BIRD REPEL** will remain tacky at 15°F and will not run at temperatures up to 200°F. It will not harm birds, simply makes area undesirable to land. One tube of **BIRD REPEL** will treat 10 linear feet when used as directed. Use Omega's **MEGA POWER** to clean bird droppings and other soils from awnings, sidewalks, railings and other affected surfaces below areas being treated.

DIRECTIONS:

Remove all loose debris and clean surfaces to be treated with Omega's **MEGA POWER** degreaser to promote adhesion of repellent. Use caulking gun or putty knife to apply beads approximately 1/2 inch wide and 1/2 inch high. Press against surface to ensure good adhesion. Use mineral spirits to remove **BIRD REPEL** or for cleanup after application.

Health	0
Flammability	1
Physical Hazard	0
Protection	B
