

E-Z Quat Blast

Hygienic Coil Cleaner

E-Z QUAT BLAST is a new generation hygienic coil cleaner designed to purify the coil as it cleans. This proprietary quaternary ammonia compound formula will help open up restricted air flow due to build up in the coil surface, advance heat transfer, reduce head pressure and optimize system capacity when the condenser and evaporator coil are cleaned on a regular preventative schedule. This specialized coil cleaner helps improve indoor air quality and aids in the breakdown of cold water slime in the pan.

DIRECTIONS: 1. Turn off A/C unit prior to using. 2. Shake well before using. 3. Coat the entire surface positioning can 6 to 8 inches from surface. 4. Let **E-Z QUAT BLAST** dwell for up to 5 minutes depending on severity of buildup on the surface to be cleaned. Watch breakdown of dust, dirt, grease etc. While the expanding foam begins to work. 5. Turn A/C unit on, no rinsing is required if sprayed on the evaporator coil. On the condenser coil a final water rinse is required. Make sure to rinse the entire surface removing all **E-Z QUAT BLAST** from the applied area.
