

FRAGRANCE ROLL BERRY BURST

Large Area Deodorizer

FRAGRANCE ROLL is a powerful odor control product effective for large enclosed rooms or sheltered areas. **FRAGRANCE ROLL** is specially treated with our advanced odor eliminating formula designed to counteract foul and persistent odors. Use **FRAGRANCE ROLL** where other products have failed or proved to be ineffective. **FRAGRANCE ROLL** can also be removed from the container and hung so the air-flow carries the fragrance to the affected area.

DIRECTIONS: Remove label on lid revealing vent holes that release the fragrance. Remove lid entirely for maximum fragrance release for persistent odors or to deodorize larger areas. Position or hang **FRAGRANCE ROLL** either in or out of the container directly in the path of airflow
