

GREASE GOBLIN

BACTERIAL FAT, OIL AND
GREASE BLOCK

GREASE GOBLIN is a bacteria laden block designed to provide continuous biological treatment over a 30-45 day period. Simple and easy to use, **GREASE GOBLIN** dissolves gradually releasing billions of beneficial bacteria into the lift station to digest FOG and maintain clean, free flowing systems.

DIRECTIONS

Suspend **GREASE GOBLIN** block with rope into area to be treated. Replace as needed with new block. Dosing rates are dependent on temperature, pH and content of the wastewater.
