

Hydro Citra Foam

Hydrogen Peroxide Powered Cleaner
with d-limonene

HYDRO CITRA FOAM uses an advanced formulation of hydrogen peroxide and d-limonene. Since **HYDRO CITRA FOAM** is specifically formulated at a higher pH than other cleaners, the hydrogen peroxide is more active, providing better cleaning and stain removing. The higher pH also allows the built-in surfactants to be more effective, giving you even better cleaning performance. Plus the d-limonene helps cut through grease. **HYDRO CITRA FOAM** can be used on a multitude of surfaces including glass, upholstery, metals, carpet, stainless steel, tile, countertops, fabric, plastic, floors, grout, walls and much more.

Directions: Just spray on stain or soil, agitate and wipe off. Always test on a inconspicuous area before using.
