

King Kong Concrete & Floor Cleaner

Heavy Duty Concrete & Floor Cleaner

KING KONG CONCRETE & FLOOR CLEANER is a heavy duty concrete and floor cleaner that won't clog coils, lines or nozzles. **KING KONG CONCRETE & FLOOR CLEANER** can be used for light to heavy cleaning in steam and high pressure machines. It works in hard water and will not leave any residue.

Directions: Concrete and other Stone Floors:

1. Remove any gum, labels or other stuck on soils with a scraper.
2. Dust mop or sweep the floor to remove all loose dirt and trash.
3. Mix **KING KONG CONCRETE & FLOOR CLEANER** in a bucket, sprayer or auto scrubber as follows:
Light Cleaning: 1 - 2 Tbs. per gallon of water
General Cleaning: 3 Tbs. per gallon of water
Heavy Cleaning: 4 Tbs. per gal of water
 Use hot water if the floor is extra dirty.
4. Mop, sponge, spray or auto scrub the entire area. Be sure to use the right pad with your auto scrubber. When possible allow cleaning solution to remain on the floor for 5 minutes before picking up.
5. Rinse and clean again if any residue is present. Change the rinse water frequently. Once clean there is no need for a final rinse.
6. Allow the floor to dry completely before allowing foot traffic.
