

Section 1 ~ Identification

Identity (As Used On Label and List)**B5173 LACQUER LICKER****Date Prepared:**

11-18-2016

Company Information:

OMEGA INDUSTRIAL SUPPLY, INC

Emergency Telephone Number:

1-800-424-9300

Address (Number, Street, Suite/Apt#)

101 Grobric Ct #1

Telephone Number for Information:

1-800-571-7347

(City, State, and Zip Code)

Fairfield, CA 94534

Signature of Prepare (Optional)

REGULATORY DEPT.

Section 2 ~ Hazard(s) Identification

Classifications

Not Classified

Pictograms

No pictograms available.

Precautionary Statement – General

P102 - Keep out of reach of children.

Precautionary Statement – Response

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor.

Precautionary Statement – Storage

P235 - Keep cool.

Precautionary Statement – Disposal

P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.

Section 3 ~ Composition/Information on Ingredients

Chemical Name	CAS No.	%(Wt.)
Dimethyl Glutarate	1119-40-0	13 – 40 %
Walnut Shells Magic	N/A	12 – 37 %
Pumice	1332-09-8	6 – 16 %
Propylene Glycol	57-55-6	6 – 14 %
Triethanolamine Oleate	2717-15-9	5 – 13 %
Dimethyl Adipate	627-93-0	5 – 12 %
Di-2-Ethylhexyl Sodium Sulfosuccinate	577-11-7	2 – 6 %
D-Limonene	5989-27-5	2 – 4 %
Silica, Amorphous	7631-86-9	1 – 4 %

Section 4 ~ First Aid Measures

Inhalation: Remove source of exposure or move person to fresh air and keep comfortable for breathing. If exposed/feel unwell/concerned: Get medical attention.**Eye Contact:** If irritation occurs, cautiously rinse eyes with lukewarm, gently flowing water for 5 minutes, while holding the eyelids open. If eye irritation persists: Get medical advice/attention.**Skin Contact:** Rinse/wash with lukewarm, gently flowing water and mild soap for at least 15 minutes or until product is removed. If skin irritation occurs or you feel unwell: Get medical advice/attention.**Ingestion:** Rinse mouth. Give two glasses of water. If you feel unwell or if concerned: Get medical advice/attention. Do NOT induce vomiting unless under the advice/direction of doctor/POISON CENTER. Note: Never give anything by mouth to an unconscious or convulsing victim. Keep person warm and quiet.

Section 5 ~ Fire Fighting Measures

Suitable Extinguishing Media: Will not burn. Use extinguishing media suitable for surrounding fire.**Unsuitable Extinguishing Media:** None.**Fire-Fighting Procedures:** Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.**Special Protective Actions:** Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

Section 6 ~ Accidental Release Measures

Emergency Procedure: ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch or walk through spilled material. Isolate hazard area and keep unnecessary people away. Remove all possible sources of ignition in the surrounding area. Notify authorities if any exposure to the general public or the environment occurs or is likely to occur. Pick up with mop or wet vac. Rinse spill area with water.**Recommended Equipment:** Wear safety glasses and gloves.**Environmental Precautions:** Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

Section 7 ~ Handling and Storage

General: Wash hands after use. Do not get in eyes, on skin or on clothing. Do not breathe vapors or mists. Use good personal hygiene practices. Eating, drinking and smoking in work areas is prohibited. Remove contaminated clothing and protective equipment before entering eating areas.**Ventilation Requirements:** Use only with adequate ventilation to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source.**Storage Room Requirements:** Keep container(s) tightly closed and properly labeled. Store in cool, dry, well-ventilated areas away from heat, direct sunlight and incompatibilities. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Indoor storage should meet OSHA standards and appropriate fire codes. Containers that have been opened must be carefully resealed to prevent leakage. Empty container retain residue and may be dangerous. Store at temperatures between 40°F and 100°F. FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY. FOR USE BY TRAINED PERSONNEL ONLY. KEEP FROM FREEZING.

Section 8 ~ Exposure Controls/Personal Protection

Eye Protection: Wear eye protection with side shields or goggles. Wear indirect-vent, impact and splash resistant goggles when working with liquids. If additional protection is needed for entire face, use in combination with a face shield.**Skin Protection:** Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves.

Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over-boots of chemically impervious materials such as neoprene or nitrile rubber is recommended to avoid skin sensitization. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

Respiratory Protection: If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter.**Appropriate Engineering Controls:** Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

Section 10 ~ Stability and Reactivity

Stability: Stable. Hazardous Reactions/Polymerization: Will not occur.
Conditions to Avoid: Keep from freezing. Hazardous Decomposition Products: None known.
Incompatible Materials: None known.

Section 11 ~ Toxicological Information

Skin Corrosion/Irritation: No data available. Causes mild skin irritation
Serious Eye Damage/Irritation: Causes serious eye damage
Carcinogenicity: No data available.
Germ Cell Mutagenicity: No data available.
Reproductive Toxicity: No data available.
Respiratory or Skin Sensitization: No data available.
Respiratory/Skin Sensitization: May cause an allergic skin reaction
Specific Target Organ Toxicity - Single Exposure: No data available.
Specific Target Organ Toxicity - Repeated Exposure: No data available.
Aspiration Hazard: No data available.
Acute Toxicity: No data available.

Section 12 ~ Ecological Information

Toxicity:
Persistence and Degradability: No data available.
Bio-Accumulative Potential: No data available.
Mobility in Soil: No data available.
Other Adverse Effects: No data available.

Section 13 ~ Disposal Considerations

Water Disposal: Under RCRA, it is the responsibility of the user of the product, to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state, and local laws. Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.

Section 14 ~ Transportation Information

U.S. DOT Information: Not regulated.	IMDG Information: Not regulated.	IATA Information: Not regulated.
--------------------------------------	----------------------------------	----------------------------------

Section 15 ~ Regulatory Information

Chemical Name	CAS number	% by wt.	Regulation List
Propylene Glycol	57-55-6	6 – 14 %	SARA312, VOC_exempt, TSCA
Di-2-Ethylhexyl Sodium Sulfosuccinate	577-11-7	2 – 6 %	SARA312, TSCA
Dimethyl Adipate	627-93-0	5 – 12 %	SARA312, VOC_exempt, TSCA
Dimethyl Glutarate	1119-40-0	13 – 40 %	SARA312, VOC_exempt, TSCA
