

MUD UP N OUT

Drain And Sewer Flushing Aid

MUD UP N OUT is a flushing aid that is designed to break up and disperse all types of organic debris and inorganic deposits that cloud up and collect in storm and sanitary sewers. **MUD UP N OUT** separates mud, dirt, silt, and sand from the water and makes it easier to flush the deposits out. When **MUD UP N OUT** is used in conjunction with a program of regular inspection, cleaning and flushing, it helps to keep piping, wells and basins unobstructed, free-flowing and clear of deposits.

DIRECTIONS

Use at a rate of 1/2 to 1 gallon per 1000 gallons of flushing water.

RECOMMENDED DOSAGES PER 400 FEET

4" Line	2 to 4 gallons
6" Line	4 to 6 gallons
8" Line.....	6 to 8 gallons
10" Line	8 to 10 gallons

Health	0
Flammability	0
Physical Hazard	0
Protection	-

Areas of Use:

- *Hotels
- *Schools
- *Cities & Counties
- *Amusement Parks
- *Sewer Departments
- *Water Treatment Plants
- *Plumbing Departments

Appearance & Odor.....	Clear to hazy liquid with no odor.
Specific Gravity/Density	0.99 g/ml
VOC%.....	0%
Net Contents.....	5 Gal.
