

O.C.R.

Poison Free Rat & Mouse Bait

O.C.R. is created from a unique patented blend of food grade ingredients to increase performance and palatability **O.C.R.** is a novel approach to a safe and effective means to rid an area of rats and mice, and the problems associated therein when used as directed. Both factors aid rat and mouse acceptance and uptake, helping to achieve rapid eradication of rat and mouse infestations. **O.C.R.** is weather resistant and perfect for use in outdoor bait boxes.

DIRECTIONS: Place **O.C.R.** within bait boxes where there are signs of rat or mice activity such as fresh droppings inside or near nests and burrows, runways and rodent feeding places. **O.C.R.** may be used indoors or outdoors. Place **O.C.R.** within bait boxes at location points throughout the infested area. It is generally more efficient to use a larger number of rat bait locations compared to a smaller number of larger bait points.

ACTIVE INGREDIENTS:

- Corn Gluten Meal42.0%
- Sodium Chloride3.0%
- Citric Acid2.0%
- Putrescent Whole Egg Solids1.5%
- Soybean Oil1.0%

INERT INGREDIENTS:

- Corn Cob, Cellulose, Paraffin Wax,
Fish Oil, Calcium Carbonate,
Coffee Grounds, Sorbitol50.5%
- TOTAL**.....100.0%

Health	1
Flammability	0
Physical Hazard	0
Protection	-

Areas of Use:

- *Hotels
- *Schools
- *Cities & Counties
- *Restaurants
- *Stadiums
- *Casinos
- *Amusement Parks
- *Any Business

Appearance & Odor.....	Tan to Grey Pellets with no odor.
VOC%.....	0%
Net Contents.....	5 Lbs.
