

Section 1 ~ Identification

Identity (As Used On Label and List) G3059 Q.D.S.	Date Prepared: 03-30-2015
Company Information: OMEGA INDUSTRIAL SUPPLY, INC	Emergency Telephone Number: 1-800-424-9300
Address (Number, Street, Suite/Apt#) 101 Grobric Ct #1	Telephone Number for Information: 1-800-571-7347
(City, State, and Zip Code) Fairfield, CA 94534	Signature of Prepare (Optional) REGULATORY DEPT.

Section 2 ~ Hazard(s) Identification

Hazard Designation: None	Emergency Overview Physical Appearance: White liquid, Mild odor. Immediate Concerns: WARNING! Causes moderate to severe eye irritation.
Potential Health Effects Eyes: Causes moderate to severe irritation. Prolonged and repeated contact can cause redness and tearing. Skin: May cause dryness with prolonged contact. Ingestion: Can cause gastrointestinal irritation, nausea, vomiting and diarrhea. Inhalation: Spray or mist can be irritating to the upper respiratory tract.	No test data is available for acute dermal toxicity. TOXIC; inhalation, ingestion or skin contact with material may cause severe injury or death.
Acute Toxicity: Carcinogenicity: Reproductive Toxicity	Mutagenicity: Not Available Medical Conditions Aggravated: None known Sensitization: Not Available
Target Organ Statement: Comments:	Contains material which can cause gastrointestinal and respiratory tract effects based on animal data. For detailed toxicological information see Section 11.

Section 3 ~ Composition/Information on Ingredients

Components (Specific Chemical Identity, Common Name(s))	CAS No.	PCNT%
None		

Section 4 ~ First Aid Measures

Eyes: Check for and remove any contact lenses. Flush out immediately for at least 20 minutes with running water and seek medical attention. Washing eyes within one minute is essential to minimizing eye damage. Hold eyelids apart to ensure flushing of the entire surface.
Skin: Wash with water. If irritation persists, seek medical attention.
Ingestion: Never give anything to an unconscious person. If swallowed, do not induce vomiting unless directed by medical personnel. Give large quantities of water or milk. If vomiting occurs, keep airways clear. Seek medical attention.
Inhalation: Move person to fresh air and away from exposure. If breathing is difficult, administer oxygen and seek medical attention. Give artificial respiration if victim is not breathing.

Section 5 ~ Fire Fighting Measures

Flammable Class: Non-flammable **Flame Propagation or Burning Rate of Solids:** Not Applicable
General Hazard: Evacuate personnel downwind of fire to avoid inhalation of irritating and/or harmful fumes and smoke.
Extinguishing Media: Alcohol type foam, CO2 (Carbon Dioxide), Dry Chemical, Water Fog
Hazardous Combustion Products: None
Fire Fighting Procedures: This product is a nonflammable substance. Fire, however, may create hazardous decomposition and combustion products. Cool exposed containers with water spray to prevent overheating.
Fire Fighting Equipment: Firefighting personnel must use respiratory and eye protection. Use full protective equipment (Bunker Gear) and self-contained breathing apparatus (SCBA) for all indoor fires and any significant outdoor fires. SCBA may not be required for small outdoor fires easily extinguished with a portable fire extinguisher.
Sensitive to Static Discharge: None
Sensitivity to Impact: None

Section 6 ~ Accidental Release Measures

Small Spill: Wearing the appropriate personal protective equipment designated in Section 8, move the leaking container to a containment area or rotate the container so that the opening is above the powder level. Sweep up and place in a labeled waste container.
Large Spill: Construct temporary dikes of dirt, sand, or any appropriate readily available material to prevent spreading of the material. Wearing the appropriate personal protective equipment designated in Section 8, close or cap valves and/or block or plug hole in leaking container and transfer to another container. Contain material as described above and place in a labeled waste container.
Environmental Precautions
Water Spill: Use appropriate containment to avoid runoff or release to sewer or waterways.
Land Spill: Use appropriate containment to avoid runoff or release to ground.
General Procedures: Remove containers of strong acids from release area. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Stop leak if you can do it without risk. Prevent entry into waterways, sewers, basements or confined areas. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Do not get water inside containers.
Release Notes: If spill could potentially enter any waterway, including intermittent dry creeks, contact the local authorities. If in the U.S., contact the US COAST GUARD NATIONAL RESPONSE CENTER toll free number 800-424-8802.
In Case Of Accident Or Road Spill Notify: INFOTRAC in USA or Canada at 800-535-5053 or internationally at (International code)+1-352-323-3500
Comments: See Section 13 for disposal information and Section 15 for regulatory requirements. Large and small spills may have a broad definition depending on the user's handling system. Therefore, the spill category must be defined at the point of release by technically qualified personnel.

Section 7 ~ Handling and Storage

Handling: Use appropriate personal protective equipment as specified in Section 8. Handle and use in a manner consistent with good industrial/manufacturing techniques and practices.
Storage: Store in unopened containers under cool and dry conditions. Do not store with, or close to acids.

Section 8 ~ Exposure Controls/Personal Protection

Engineering Controls: If dust, vapors, or mists are generated, provide local exhaust ventilation to control airborne levels below the exposure limit.
Personal Protective Equipment
Eyes and Face: Wear chemical splash goggles and face shield when eye and face contact is possible due to splashing or spraying of material.
Skin: Where contact is likely, wear neoprene chemical resistant gloves, a chemical suit, rubber boots, chemical safety goggles and a face shield.
Respiratory: Always wear NIOSH approved respiratory protective equipment when vapor or mists may exceed applicable concentration limits.
Work Hygienic Practices: Facilities storing or using this material should be equipped with an eyewash facility and a safety shower. Follow good personal hygiene practices.
Comments: ACGIH's Guide to Occupational Exposure Values don't list PEL's, TLV's or OEL's for this product or its ingredients.

Section 9 ~ Physical and Chemical Properties

Flash Point and Method: None (Cleveland Open Cup)	Vapor Pressure: < 0.1	Evaporation Rate: < n-Butyl Acetate
Flammability Limits (LEL/UEL): Not Available	Vapor Density: Not Available	Density: Not Available
Auto-Ignition Temperature: None	Boiling Point: 220°F	Specific Gravity: 1.026

Physical State: Liquid
Odor: Mild
Color: Milky White
pH (As Is): 7.0 – 8.0

Freezing Point: Not available
Melting Point: Not Applicable
Solubility in Water: Complete

Viscosity: 1 – 3 cps
Decomposition Temperature: Not Available
Coefficient Oil/Water: Not Available

Section 10 ~ Stability and Reactivity

Stable: Yes
Hazardous Polymerization: No
Polymerization: Will not occur
Stability: The product is stable under normal ambient conditions of temperature and pressure.

Conditions to Avoid: Heat, temperatures above 200°C.
Hazardous Decomposition Products: None
Incompatible Materials: Strong Acids

Section 11 ~ Toxicological Information

Acute
Eyes: Not Available
DERMAL LD50: Not Available
Oral LD50: Not Available
Inhalation LC50: Not Available
Eye Effects: None.
Skin Effects: None.
Target Organs: Eyes, skin.

Carcinogenicity
IARC: Listed by IARC - No
NTP: Listed by NTP - No
OSHA: Listed by OSHA - No
Sensitization: Not Available
Reproductive Effects: Not Available
Teratogenic Effects: Not Available
Mutagenicity: Not Available

Section 12 ~ Ecological Information

Environmental Data: May cause adverse environmental impact if material reaches waterways.
Eco-toxicological Information: Not Available
Distribution: Not Available
Chemical Fate Information: Not Available

Section 13 ~ Disposal Considerations

Disposal Method: Dispose of waste at an appropriate waste disposal facility according to current applicable laws and regulations.
For Large Spills: Contain material and call local authorities for emergency assistance. In consultation with the appropriate authorities, determine the disposal method or contact Omega Industrial Supply, Inc.
Product Disposal: Dispose of at a supervised incineration facility or an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal.
Empty Container: Rinse drums with water before disposal or reuse in accordance with applicable regulations.
GENERAL COMMENTS: Refer to Section 6, Accidental Release Measures for additional information.

Section 14 ~ Transport Information

<p>Road and Rail (ADR/RID): Non-regulated. Kemler Number: None Hazard Class: Non-regulated.</p>	<p>Air (ICAO/IATA) Shipping Name: Non-regulated Technical Name: Mixture UN/NA Number: Non-regulated Primary Hazard Class/Division: Non-regulated Packing Group: Non-regulated Label: Non-regulated. Remarks: None</p>	<p>Vessel (IMO/IMDG) Shipping Name: Non-regulated Technical Name: Mixture UN/NA Number: Non-regulated IMDG Class/Division: Non-regulated Packing Group: Non-regulated Label: Non-regulated Marine pollutant: No EMS Number: Non-regulated Remarks: Limited quantity</p>

Section 15 ~ Regulatory Information

European Community
EEC Label Symbol and Classification
S36/39: Wear suitable protective clothing and eye/face protection.
S24/25: Avoid contact with skin or eyes.
S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S28: After contact with skin, wash immediately with plenty of soap and water.
European Community Regulatory: All intentional ingredients are listed on the European's EINECS Inventory.

Section 16 ~ Other Information

	NFPA	HMIS	Key
HEALTH	0	0	4= Severe
FLAMMABILITY	0	0	3= Serious
REACTIVITY	0	0	2= Moderate
OTHER/PROTECTION	-	-	1= Slight 0= Minimal
