

San Clean

Foaming Germicidal Cleaner

SAN CLEAN has been designed specifically for Homes, Nursing Homes, Hospitals, Institutions, Offices, Schools, Motels and Hotels. When used as directed, **SAN CLEAN** is formulated to disinfect inanimate hard surfaces (such as walls, sink tops, tables, chairs, telephones, bathrooms, shower stalls, bathtubs, hampers, cabinets and bed springs). In addition, **SAN CLEAN** deodorizes those areas which generally are hard to keep fresh smelling (such as garbage storage areas, empty garbage bins and cans, restrooms, shower stalls and other areas which are prone to odors caused by microorganisms). When used as directed, **SAN CLEAN** demonstrates effective disinfection against *Staphylococcus aureus*, Methicillin Resistant *Staphylococcus aureus* (MRSA), *Salmonella enterica*, *Pseudomonas aeruginosa*, Canine Parvovirus, Herpes simplex type 1, Herpes simplex type 2, *Legionella pneumophila*, and Influenza A H1N1, thus meeting requirements for hospital use. Efficacy tests have demonstrated that **SAN CLEAN** is an effective one-step cleaner disinfectant in the presence of organic soil (5% blood serum). **SAN CLEAN** is fungicidal against Pathogenic fungi (*T. mentagrophytes*), when used as directed on hard surfaces found in the bathroom, shower stall, and locker room, or other clean, hard, non-porous surfaces commonly contacted by bare feet. **SAN CLEAN** is a versatile disinfectant and virucide for veterinarian and animal care applications when used as directed below. **SAN CLEAN** can be used in Veterinary clinics, animal life science laboratories, kennels, dog/cat animal kennels, breeding and grooming establishments, pet animal quarters, zoos, pet shops, tack shops and other animal care facilities. **MOLD AND MILDEWSTAT: SAN CLEAN** controls mold, mildew and the odors they cause on hard, non-porous, inanimate surfaces when used as directed.

DIRECTIONS: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **DISINFECTION, DEODORIZATION AND CLEANING: SAN CLEAN** is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. **SAN CLEAN** may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. Surfaces which come into contact with food must be rinsed with potable water after disinfection. Do not use **SAN**

CLEAN to disinfect or clean dishes, glassware or eating utensils. **To disinfect hard non-porous surfaces (such as glazed bathroom tiles, walls, fixtures, shower stalls, sinks, bathtubs, hampers, tables, chairs, HVAC catchpans and air conditioning evaporator coils), proceed as indicated below:** (1) Shake can before using. (2) Hold six to eight inches from surface to be treated. (3) Spray area until it is covered with a white foam. Allow foam to penetrate and remain wet for 10 minutes. No scrubbing necessary. (4) Wipe off with a clean cloth, mop or sponge.

Health	1
Flammability	0
Physical Hazard	1
Protection	A

Areas of Use:

- *Bathrooms
- *Offices
- *Parks/Recreations
- *Hotels
- *Hospitals
- *School Districts
- *Retirement/Care Facilities
- *Restaurants

Appearance and odor.....	White foam aerosol, citrus scent with moderate ammonia odor.
Specific Gravity.....	1.00 @ 77°F (25°C)
VOC %	16%
Net Wt.	18 oz.
