

# Scent Appeal Beads

## Air Freshening Bead Bags

This new idea in air fresheners provides fresh smelling air to an entire area in just minutes. **SCENT APPEAL BEADS** are primarily designed for HVAC systems, but can be used in many other applications such as vacuum bags, drawers, fan units, vents, and in vehicles for a continuous pleasant fragrance. **SCENT APPEAL BEADS** work best where there is air flow through the bag, and they last up to 30 days! For added convenience Omega offers a dispenser so that the bags can be placed under tables and restroom counters to freshen without being seen. **Available in cherry, citrus surprise, fresh-air, orange, peach, plumeria, potpourri, spice, watermelon and vanilla.**

**Directions:** Place a bead bag into the air system, in vacuum bags, vents, or anywhere else there is airflow to provide continuous fragrance in a large or small space. For continuous problem odors or oversized rooms, use multiple bags placed strategically throughout the area.
