

SCENT SOURCE HVAC REFILL 16oz

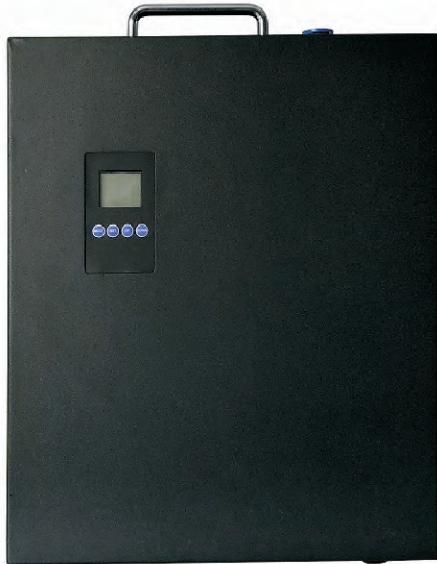

SCENT SOURCE fragrances create a subtle yet invigorating scent perfect for spaces where fragrance sensitivity is an issue. Available in **Mango, Linen and Cucumber Melon.**

DIRECTIONS

Switch off your **SCENT SOURCE HVAC** diffuser unit. Carefully remove fragrance by pulling the tamper-evident band at tab. Retain cap for future use. Detach bottle seal by looping finger through toggle and lifting. Discard seal. Remove existing fragrance bottle from **SCENT SOURCE HVAC** diffuser unit and replace the cap. Holding upright, carefully twist the new fragrance bottle into unit. Close and lock the unit's door. To clean unit periodically, run with 91% Isopropyl Alcohol for several minutes before installing a new fragrance bottle. Never use water to clean your **SCENT SOURCE HVAC** unit. Consult manual for details.
