

Speedy Clean

Bathroom Cleaner

SPEEDY CLEAN is a powerful and completely safe, organic acid replacement cleaning system. It has the power to clean buildup usually requiring a mild acid such as calcium, hard water spots, soap scum and rust, yet it is completely acid free! **SPEEDY CLEAN** clings to most surfaces, increasing dwell time and making cleaning of slanted and vertical surfaces like those found in tubs, toilets, shower walls, urinals, tile and grouting much easier and less time consuming. Safe for use on Terrazzo, Marble, Terra Cotta, Tile, Travertine, Magnesite and other similar surfaces.

SPEEDY CLEAN is very safe and easy to use, and is not hazardous, caustic, corrosive or toxic. Will not fume and does not contain phosphates.

Directions: For hard water spots, rust, calcium etc. use full strength. Saturate the area with **SPEEDY CLEAN** and allow to work. Remove with small brush or non-scratch scouring pad. For regular maintenance cleaning dilute 1 to 5 or 1 to 10 parts water. Rinse well once all stains have been removed.
