

# BIO BLOCK RED 5 LBS

Enzyme Block with Net

**BIO BLOCK RED** is a slow dissolve, bacterial-laden solid for use in degrading organic waste in higher flow systems such as lift stations, wet wells, etc. The safe, naturally occurring bacteria are present in high numbers to handle difficult organic problems. **BIO BLOCK RED** will gradually dissolve over a 30-90 day period which allows for continuous treatment and degradation of waste. The naturally-occurring bacteria contained in the block will reduce odor, sludge, fats, oils and grease buildup. Increase your system's efficiency and reduce your labor expenses with Omega's **BIO BLOCK RED**.

**DIRECTIONS**

Suspend from rope into wastewater ensuring **BIO BLOCK RED** is submerged in the water phase for proper dissolution.

Health	1
Flammability	0
Physical Hazard	0
Protection	B

**Areas of Use:**

- \*Oxidation Ditches
- \*Cities & Counties
- \*Lift Stations
- \*Holding Tanks
- \*Wastewater Plants
- \*Septic System Rejuvenation
- \*Industrial Grease Traps
- \*Lagoons

Appearance & Odor.....	Solid red block with characteristic odor
Degradation Flow Rate.....	75 KGD - 250 KGD
Net Contents.....	5 lbs
