

BREEDERS

Super Concentrated
Liquid Alive Bacteria

BREEDERS combines special multi-cultured strains of natural bacteria with the waste digesting properties of salmonella-free natural enzymes that are non-pathogenic and non-polluting. These anaerobic and aerobic bacteria have been cultured specifically for their ability to digest waste quickly and effectively thus speeding up the normal break-down process. Free enzymes are then combined with the bacteria to make **BREEDERS**, the fastest working “bugs” in the industry. They quickly and effectively break down organic matter and the odors associated with decomposition. It is recommended for use in grease traps, septic tanks, drain lines, holding tanks and garbage areas to control odors and prevent build-up.

DIRECTIONS:

SHAKE WELL BEFORE USING.

DRAIN LINES: To maintain free flowing lines and control odor, use 3-4 ounces of **BREEDERS** two to three times per week. Initially, add 4 oz. of **BREEDERS** for every 2” of pipe size. For heavy use drains use 4-6 oz. per week. Bleach, disinfectants and chemical drain openers may kill bacteria. Retreat the system with **BREEDERS** after using these types of products. For best results, use at the end of the day to allow time for the bacteria to work.

GREASE TRAPS: Treat at night or when traps are used least. Pour 4-5 oz. of **BREEDERS** directly into trap, or in pipeline closest to trap for traps less than 20 cubic feet capacity. For grease traps larger than 20 cubic feet add 8-10 oz. Follow with 1 cup lukewarm water. Daily use is recommended.

SEPTIC TANKS: Initial treatment: use 1 pint of **BREEDERS** per 25 cubic feet capacity poured directly into toilet and flushed. Thereafter, use 8 ounces weekly. If septic tank has become clogged and odorous, add 1 gallon of **BREEDERS** directly to the tank through the manhole.

HOLDING TANKS: Initial treatment: use 2 ounces of **BREEDERS** per gallon of water in holding tank. Thereafter, use 1 ounce per 50 gallons of capacity. Add 1 pint per week for maintenance.

Health	0
Flammability	0
Physical Hazard	0
Protection	B

Areas of Use:

- *Schools
- *Cities & Counties
- *Hospitals
- *Sewer Departments
- *Housekeeping
- *Apartment Complexes
- *Office Buildings

Appearance & Odor.....	Off-white milky liquid with floral scent
VOC%.....	0%
Net Contents.....	1 US Gallon (3.78 L)
