

COAT IT

High Solids Industrial Coating

COAT IT is a superior industrial spray paint formulated for maintenance operations where maximum performance is required. This high solids paint does not run or sag, and gives twice the coverage of conventional spray paints. **COAT IT** Can be used on wood, home, automotive, industrial, marine, construction, and can be applied to bare metal. For maximum protection, use Omega's **PRIMAL PRIMER LIGHT GRAY**. **COAT IT** Resists oil, gas, heat, and sunlight. Available in Black, Flat Black, Blue, Red, White and Yellow.

DIRECTIONS:

1. Surface must be clean, dry and free of rust before painting. Protect surrounding areas from spray mist. For best results, use when can is between 50°F and 90°F (10°C and 32°C).
2. Shake can at least one minute after rattle is heard and occasionally during use.
3. Spray surface with steady even strokes at a distance of 8 to 10 inches (20 to 25cm). Several light coats give a better finish than one heavy coat. Recoat - For best results recoat within 1 hour or after 48 hours. This time varies with curing temperatures, humidity, and film thickness. Test a small hidden area before recoating.
4. If clogging develops, turn sprayhead 1/4 turn or remove and clean sprayhead slot. **DO NOT** stick pin or other objects into can opening. With can and sprayhead pointed away from you, reinsert sprayhead with gentle twisting motion.
