

DRAIN WATCH

Drain Dosing System

The Omega **DRAIN WATCH** dosing system is perfect for the toughest of environments. It features a premium motor for extended life and is ideal for use in commercial kitchens and tough industrial environments. A choice of mains powered, or battery powered operation allows for installation in any location.

Supplied with everything you need in the box, the **DRAIN WATCH** is easy to install and its backlit display with multi-lingual programming keeps setup simple. With its weatherproof enclosure, the system can provide reliable and uninterrupted performance for drain maintenance, grease trap management and other water treatment applications.
