ELIMINATOR

Malodor Counteractant
Water Base Bomb

OMEGA INDUSTRIAL SUPPLY, INC.

ELIMINATOR is a dry spray room deodorizer that can be used as a space spray or as a total release fogger without leaving a residue. The fine mist penetrates to remove odors embedded into walls, curtains, ceiling tiles, upholstery, and more. **ELIMINATOR** is not an odor mask, it destroys odors by chemical neutralization, eliminating the need for costly fogging equipment that could break down when you need it most. One can of **ELIMINATOR** will treat 6,000 cubic feet, removing odors caused by decay, urine, feces, solvents, cigarette smoke, cooking, pet odors and much more. **Available in Dreamsicle**, **New Car Scent and Vanilla.**

DIRECTIONS

Close all windows and shut off A/C or heater. Place can on raised surface near center of room. Press valve until locked down. Immediately leave the room for at least 2 hours. Ventilate room for 30 minutes prior to re-occupying. It can also be operated to give short bursts of spray by lightly depressing valve.

Areas of Use:

*Airplanes	*Hospitals	*Offices
