

# FORMULA 57

Grease Eater for Drains

**FORMULA 57** liquefies grease and controls objectionable odors. It is non-acid, non-corrosive, non-caustic, and generates no heat, so it is safe on pipes and safer for employees. **FORMULA 57** is designed to reduce the accumulation of grease, fats and slime that form in sewage lines, septic tanks, cesspools and drains, thus ending overflow, clogging and offensive odors. **FORMULA 57** dissolves the grease that holds hair, soap scum, coffee grinds and other blockages together thus allowing drains to flow freely. Aids in restoration of soil porosity to dispose of wastes more quickly and controls odor causing bacteria with no harmful side effects to beneficial digestive organisms. Recommended for use in kitchen drains to dissolve grease and for control odor. In refuse areas **FORMULA 57** removes the breeding ground for maggots and controls odors.

### DIRECTIONS

**KITCHEN DRAINS:** Pour 4 oz. of concentrate into drain. Allow to remain as long as possible. Do not allow product to come into contact with food.

**SEPTIC TANKS & CESSPOOLS:** Add 1 pint per 500 gal. capacity for initial treatment. Use 1 to 2 oz. pre week for each 500 gallon capacity as a preventive maintenance treatment.

Health	2
Flammability	1
Physical Hazard	0
