

FRESHEN UP AWAY

Deodorant Granules
With Citronella

FRESHEN UP AWAY is a special blend of infused odor control granules that fight against odors at their source. These granules are safe to use, economical and absorb liquids and vomit on contact. **FRESHEN UP AWAY** maybe applied to areas to prevent odors before they occur.

DIRECTIONS

Use shaker bottle to sprinkle deodorant granules over odor causing materials.

GENERAL USE: For best results, lightly sprinkle into empty refuse and garbage receptacles and add small amounts periodically or as refuse and waste are deposited. This will prevent obnoxious odors from getting started.

CIGARETTE URNS: Use full strength or mix with sand or any other base material. This will keep not only the urn smelling clean, but act as a room deodorant as well.

SWEEPING: Mix with dry sweeping compound, sprinkle on floor and allow to stand a few minutes before sweeping in usual way. May also be used, without mixing with sweeping compound, in areas where treated dust mops are used.
