

ICE MELT MINI PELLETS

Granular, Safe on Asphalt & Concrete

ICE MELT MINI PELLETS are ideal for clearing sidewalks, driveways and parking lots. The round shape of **ICE MELT MINI PELLETS** helps penetrate ice and break the bond with the pavement more quickly than flat or crystal-shaped ice melters, allowing easy removal of snow and ice.

- Melts more ice in 20 minutes than magnesium chloride in 60 minutes
- Melt 1000 ft² of ice with only 28 lbs of **ICE MELT MINI PELLETS** compared to 50 lbs of magnesium chloride
- Environmentally Friendly: **ICE MELT MINI PELLETS** introduces 15% less chlorides into the environment compared to magnesium chloride
- Releases heat to speed melting
- Performs in a wider range of winter temperatures, even extreme cold

DIRECTIONS

1. Clear snow
2. Calibrate and fill spreader
3. Spread at recommended rate*
4. Clear slush

*Recommended rate = 28 lbs per 1,000 ft². Adjust based on ice thickness and temperature.
