

M BOMB

Insecticide Fogger

M BOMB is a water-based, one-step killing action total release insecticide fogger which penetrates to all areas for thorough insecticidal action. **M BOMB** contains permethrin, pyrethrin and MGK® 264. **M BOMB** is designed with a special lock down valve for total release killing cockroaches, crickets, ants, mosquitoes, fleas, rice weevils, saw-tooth grain beetles, ticks, flies, and small flying moths. One unit can treat up to 9,000 cubic feet (approximately 25 feet x 45 feet x 8' ceiling) cubic feet of unobstructed area. For spot treating and immediate action in occupied spaces, use Omega's **TERMINATOR** crawling insect killer.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **DO NOT** use in small, enclosed spaces such as closets, cabinets, or under counters or tables. **DO NOT** use in a room 5 feet by 5 feet or smaller; instead, allow fog to enter from other rooms. Open cabinets and doors to area to be treated. **SHAKE WELL BEFORE USE. KEEP CONTAINER UPRIGHT.** Close doors and windows. Point valve opening away from face and eyes when releasing. Use one unit for each 9,000 (approximately 25 feet x 45 feet x 8' ceiling) cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured. Do not remain in the area during treatment and ventilate thoroughly before re-entry.

To Kill Ticks and Fleas: Old bedding should be removed and replaced with fresh, clean bedding after treatment. Pets should be treated with a registered product for flea and tick control in conjunction with this treatment.
